Lake Villa Club's Fete Accorded Fine Reception

Summertime Dance and Festival Is Attended by Over 1,000

Termed "an outstanding success" in all respects by the chairman of the festival committee, William A. Weber, the "Summertime dance and festival" sponsored by the Lake Villa Community Men's club last evening in Sherwood park attracted an attendance of more than 1,000.

The auction of several hundred items donated by individuals and business concerns of the area was a complete "sell-out," it is reported, and aided greatly in raising the funds which the club will use in carrying on its recreation program for young people of the community.

William A. Chandler, a well known auctioneer, volunteered his services for the occasion, and Ambrose Griffith of the Public Auction Service company did likewise in the capacity of clerk.

Dancing until 1 a. m. was enjoyed to the music of Bob Langdon's orchestra. Refreshments were served on the festival grounds, and there games and other special attractions.

Weber and his fellow committee members expressed hearty appreciation to residents of surrounding communities, citing Antioch in particular, for the support given the Lake Villa folks in this venture, and for the fine cooperation the committee received in all respects from the public.

Salvation Army to Hold "Tag Day" Saturday

The Salvation Army will hold their annual Tag Day in Antioch this coming Saturday, Aug. 25. Captain Rose of Waukegan announced today. The taggers will be on the streets at 9:00 A. M. and will work throughout the day.

"Whether in war or peace, there is one army that never disbands or relaxes in its efforts to alleviate distress, to administer to the unfortunate and to point the way to an upward, triumphant life. I refer to the world-wide organization known as the Salvation Army," says Capt. Rose.

"The Salvation Army has a universal religion—a religion of helpfulness and hope. A church where men and women gather—on busy streets, in homes where there are sickness, poverty and distress. Think of the thousands of unselfish Salvation Army lassies, who have bravely stood upon street corners, singing the songs of victory into sick souls and year in and year out administering to the needy and the distressed."

"The Salvation Army is a distributing army—giving out love, help of endless varieties, such as shelter, food and jobs. Its soldiers visit the sick and needy and cooperate with many organizations in times of distress. It only asks to serve."

"The contribution that you give to the Salvation Army is money put out as an investment of human salvage and human uplift. It has no 'office hours'—open house at all hours—day and night."

"On the battlefields of peacetime, as well as during wartimes, the work of this great organization goes on and no let-up. There is always a call from somewhere—someone to feed, someone to encourage, someone to help to a job—someone's spiritual hunger to appease and to satisfy."

"Your contribution this coming Saturday will be the means of helping the Salvation Army to help someone else."

Community Canners to Help

Hungry Millions Abroad

A nation-wide program to help provide urgently needed food for the hungry millions in war-devastated Europe has been launched in community canning centers, it was announced recently.

The community canning program for war relief was organized by the United Nations Relief and Rehabilitation Administration with the cooperation of three divisions of the United States Department of Agriculture, the Office of Home Food Supply, federal and state extension services, and Nutrition Programs branch; the United States Office of Education, Future Farmers of America, the Camp Fire Girls and the Girl Scouts. The United Nations Relief and Rehabilitation Administration will ship the contributions.

Users of community canning centers have been urged to step up production ten per cent above all local needs, and to contribute this surplus for free distribution overseas. This plan to build a food pool for the war relief will not lead to any reduction in the domestic civilian supply.

Dan A. West, director of the division of contributed supplies of UNRRA, is executive director of the Community Canning Program for War Relief, with national headquarters at 100 Maiden Lane, New York. He pointed out that only vegetables, fruit, and vegetable and fruit juices canned in tin under qualified supervision are sought. Fruit packed in water without sugar is acceptable. Food in glass containers cannot be accepted for overseas shipment.

In communities where there are canning centers, members of victory garden groups, farm organizations, youth groups, women's clubs, Parent-Teacher associations and civic and service clubs are supporting the

We are Learning

The net result of all the comment and investigation relating to sugar shortage, butter shortage, cheese and milk products shortage, beef shortage, poultry shortage, pork shortage, lamb shortage, egg shortage, dry bean shortage and shortage piled upon shortage is as clear as mud to the average citizen.

He is told that cattle on the range number approximately 30 per cent more than ever before in history, but he can't eat cattle on the range. In the butcher shop he sees horse meat, goat meat, much fish that was never before used for anything but crab bait, various insides of animals which are now sold for human consumption, bare bones sold for several cents a pound, and all manner of substitutes for legitimate food.

The OPA, the War Food Administration, and the Department of Agriculture are blamed for this situation. In all fairness, it should be stated that no one agency is to blame. A world war upsets any domestic economy. But it is safe that the "planned economy" which we accepted as a war and anti-inflation measure, had a great deal to do with the disorganization and shortages in our normal sources of supply. Uncontrollable elements in a planned economy create shortages in many instances. Holding down the hog supply or the wool market may help some producers while it hurts the consumers of lard and wool shirts.

The people must remember that the idea of a controlled economy is no different than the philosophy of socialism which puts government into business to

the exclusion of private citizens. Are we going back to a free economy with the risks and rewards which it entails, or will we become resigned to accepting the judgment and oppressions of government in lieu of our own opinions and freedom of action after the war? We are having experience with a planned economy now on which base our peace time decisions.

How to Start Farming

(Farm Journal)

You're a young man and you want to own a farm. What's the quickest way to do it?

Start out as a hired man—on a good farm—in a community of good farms. There's the answer, in three parts, all of them important. You'll own a farm sooner, and a good one at that, and you'll have a better living in the meantime, than if you start by trying to buy a cheap piece of land you think you can afford. Why is the first route shorter? Not so much because you'll save a lot of money as a hired man, but because in a good community you put yourself in line for good chances; the chance to rent a good farm; then to buy one; maybe to marry a farm owner's daughter.

If you start the other way—by making a down payment on a cheap farm—opportunity may pass you by. You think you're set, so you aren't looking for other chances. If you fall in love with a girl in a community of poor farms, chances are you'll be marrying more poor land, too. (We may as well be realistic about this.)

These are some of the conclusions of Orlo H. Maughan, economist of the Farm Credit Administration of Spokane, Washington. Maughan has just analyzed 11,000 Land Bank loans in Montana, Idaho and Washington, to find out what kind of farms, and farmers, pay off their debts and what kind fail to make the grade.

Library News

(By Marian Rigby, Librarian)

"Battle Below," by Robert Casey, whose publication the Navy held up for two years because of national security, is the thrilling saga of submarine warfare. We are told, "Our submarines were at their jobs an hour after the blast at Pearl Harbor, and they have been working on a schedule like that of a suburban bus line ever since. They are constantly whittling at Hirohito's supply lines. They have accounted for more Japanese tonnage than all the other arms of the service put together."

Margaret Widdemer's new novel "Constance Herself," describes the predicament of Constance Hart, beautiful young socialite, who finds out, on the eve of her wedding, that she is an adopted child of unknown parentage.

"With Sirens Screaming," by Ernest Booth, is the story of two young people who start out to be married and run afoul of the law.
Gertrude Lawrence's "A Star Danced" is the fascinating autobiography of that actress. The Danish correspondent, Karl Eskelund, describes international adventure as well as his marriage in "My Chinese Wife." Mystery fans will enjoy "She Never Reached the Top," by Elma Lobaugh, a new writer who has the deft touch of a veteran.

Mr. and Mrs. H. E. Shepard of Kansas City, Mo., are the guests this week of the H. B. Gaston family.

ROYAL NEIGHBORS TO MEET TUESDAY NIGHT

A demonstration by a Stanley representative will be a feature of a meeting to be held by the Royal Neighbors Tuesday evening.

Miss Frances Oppiger of Boise, Idaho, is the guest of Mr. and Mrs. Earl Gibbs.

Cadet Nurse Frances Zimmerman returned to her duties at University hospital, Chicago, after spending yesterday and last night with her parents, Dr. and Mrs. L. J. Zimmerman, Channel Lake. Dr. and Mrs. Zimmerman learned in a letter from their nephew, Pfc. Elmer Jack Pearl, Jr., Camden, N. J., that on his return to duty at Kearns field, Utah, after a recent visit here, he was in a railroad mishap on the other side of Aurora, Ill., in which eight cars were derailed. Several of the passengers were jolted and bruised but there were no serious injuries, he reported.

Charring of a wall behind a heating stove in the Carmody cottage on Addison lane, Channel Lake, tenanted by the Rogers family, brought a call to the Antioch Fire department Wednesday.

Antioch F. F. A. Lads Win Two Trophies at Geneva Meet

Of the 20 some high schools having an agricultural department in north-eastern Illinois, and that completed in the Future Farmer Fair at Geneva, Ill., last Thursday, the Antioch Township High school came away with two large trophies for having the best school exhibits in sheep and swine.

The winning of the swine exhibit was spectacular in that over 300 hogs were shown and the competition was very keen. The victory was made possible mainly through the splendid showing of a stoning of Duor Jerseys by Donald Irving, a student at the Antioch Township High school.

He won the purple over all breeds of swine in the single barrow, pen of barrows, gilt and letter at the Geneva Fair; and the purple on gilt, and boar at the Lake County 4-H Fair the day previous.

Antioch boys exhibiting hogs were Donald Irving, Robert Carlson, James Crichton, George Vose and Niel Krothowicz.

Sheep were exhibited by Harland

nesday evening at 9:45 o'clock. Only minor damages resulted.

News of the Boys . . .

First Lt. and Mrs. Orville R. Winfield of Lockbourne Army Air base, Columbus, O., are spending several visiting relatives in this area. Mrs. Winfield is a daughter of Mr. and Mrs. Hugo Gussarson, Highway 173. Lt. Winfield is a son of Mr. and Mrs. Ray Winfield, Bristol.

Details of the testing of the atomic bomb on the Alamogordo Army Air Field reservation are told in an issue of the Alamogordo Blockbuster for Aug. 11, a copy of which has been sent here by S/Sgt. Lorraine O. Pape, daughter of Mr. and Mrs. Henry A. Pape, Antioch.

The explosion of the bomb at 5:30 a. m. the morning of July 16 was explained at the time as that of "a remotely located ammunition magazine, containing a considerable amount of high explosive and pyrotechnics."

Pfc. Raymond F. Hills arrived home last Tuesday to spend a 33-day furlough. His parents, Mr. and Mrs. Walter K. Hills, his wife, and their daughter Bonnie drove to Camp Grant to meet him and bring him to Antioch.

His service in radar work from May 15, 1944, to Feb. 10, 1945, was the basis of the awarding of a Bronze Star medal to T/Sgt. Harry L. Nelson earlier this year.

Sgt. Nelson, who was recently home on furlough and is now at Dow field, Bangor, Me., acted as radar line chief, supervising all maintenance, installation and modification of radar-equipped planes, while serving with the 727 Bomb squadron (H), 451 Bomb group.

His citation states that the average number of planes equipped with radar and radar countermeasure equipment included (PPF), 12, and (RC-M), 36, and that with only 35 percent of authorized personnel available for line maintenance duty, Sgt. Nelson "repeatedly installed innovations to accelerate repairs, alleviate to be carried out at night."

"Radar supplies are extremely in situation of personnel shortage." It continues, "The new men were green and inexperienced, so Sgt. Nelson set up a training program. He gave lectures daily and taught them rapid and efficient methods of trouble shooting."

"His line had an almost perfect record for planes operational each day."

"A shortage of planes caused work

hard to obtain. Sgt. Nelson's judicious demands for preventative maintenance and prompt repairs have lengthened the operative life of many vital parts.

"Most bombing at present is done by PFF making mechanical perfection mandatory. . . . Sgt. Nelson has met this condition with one of the finest efficiency records in the Air force."

"Although his position as Line Chief required him to work an average of 14 hours a day, Sgt. Nelson has found time to do experimental work in the radar laboratory, and

many of his modifications and suggestions have been adopted by the Air force."

The citation bears the signature of Joe C. Pritchett, Captain, Air corps, group radar officer.

Sgt. Nelson, who entered the service Oct. 22, 1941, is entitled to wear the Distinguished Unit badge with two Oak Leaf clusters, the European, African, Middle Eastern Theater ribbon, Good Conduct medal, Bronze Star medal, American Defense Service ribbon and eight battle stars as well as one service stripe ("hash mark") and overseas stripes.

In the Antioch News
Aug. 22, 1895

Miss Birdie Brophy was winner of the Antioch News cup in the Ladies' regatta for benefit of the Fox Lake Fresh Air home, Saturday on Fox lake. The course was from Mineola hotel to Lippincott's, to Island, back to Mineola, sailed twice, a distance of six and one-half miles. Happy Days, Miss Marion Tooker, captain, was second.

From an account of a journey to Lotus Point—

"The services of Mr. L. K. Willett were secured, and with him at an early hour in the morning we started in his bus. The company stopped at old log cabin erected perhaps fifty years ago, and by whom our guide was unable to say, but all conjectured

that it had been the home of Indians or some very early settler. Further along the road we reached the home of Mr. John Horan, who, we were told, has lived in this section of the country for over forty years, owns over 140 acres of land. . . . His estate is known as "Happy Hollow," and John is regarded as a man whom sorrow has marked no sorrows on his brow, but takes the world as easy as a jarvey on an Irish jaunting car. A comfortable hotel at the Point is established by Mr. Jackson. His son Michael runs the hotel. . . . another great curiosity at this place is Baker's exhibition of over one thousand articles carved out of wood. One piece contains nearly four thousand pieces of wood."
